

jeff bezos  
sneezos

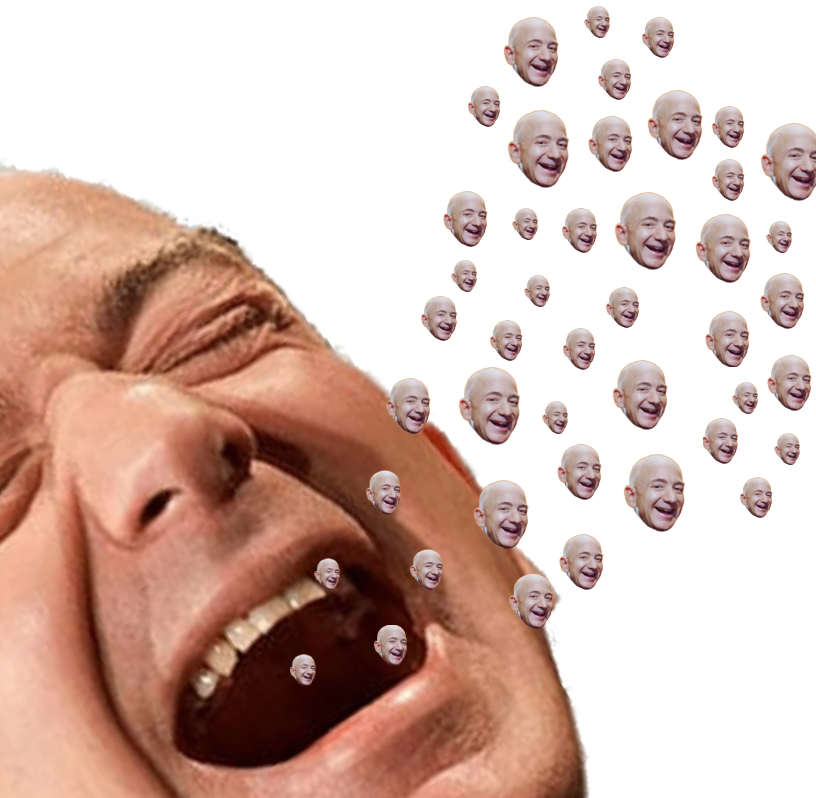

jeff bezos sneezosed.

god bless you, said a nearby  
bootlicker

but jeff already knew that the  
gods had blessed him from  
the day he was born

for the ancient greeks,  
a sneeze was a gift  
from the gods

a divine omen

a foretelling

and jeff knew his destiny was  
at hand

blue origin is my “most important work,” said jeff

— OUR VISION

# Millions of People Living and Working in Space

Blue's vision is a future where millions of people are living and working in space in order to preserve Earth, our home, for our grandchildren. In order to ensure that our grandchildren's grandchildren, we must go to space to tap into the unlimited resources and energy. If we can lower the cost of access to space with reusable launch vehicles, we can all enable this dynamic future for humankind.

"we have to go to space to  
save earth," Jeff said

— ASTRONAUTS

## Unparalleled Views Of The Earth from Space

Experience the overview effect firsthand when you fly to space on board New Shepard. At the apex of your 11-minute flight, you will float above the thin limb of the atmosphere and gaze upon the Earth below.

BECOME AN ASTRONAUT

**Smith:** Any technology that starts off ... starts off at a high price point so we're going to start at a high price point and go down from there, but it will be in the hundreds of thousands of dollars for the initial tickets.

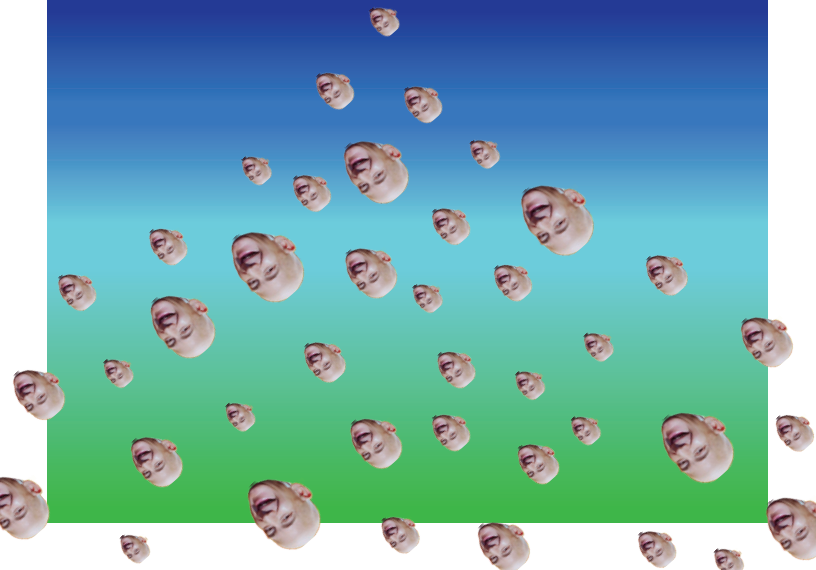

jeff knew that his ascent to  
the heavens was preordained

the pantheon watched over  
him, he the conduit through  
which they meddled in  
earthly affairs

by will or by valor, he would  
save humanity from their  
own recklessness

jeff's sneezos was carried on  
zephyr's gentle wings unto  
the ends of the earth, floating  
along in the gentle ebb and  
flow of the west wind

for zephyr, son of the starry  
one, harbinger of spring, it  
had been many seasons since  
the air had felt quite so heavy

in the light spring breeze  
faint traces of voices echoed  
out from offices, factories,  
and launch sites

let us work from home jeff

give us paid sick leave jeff

stop retaliating against  
employees who organize jeff

do literally anything to help  
other people jeff

SCIENCE

# JEFF BEZOS' SPACE COMPANY IS PRESSURING EMPLOYEES TO LAUNCH A TOURIST ROCKET DURING THE PANDEMIC

*Blue Origin wants workers to travel from Washington to rural Texas for the mission*

By [Loren Grush](#) | [@lorengrush](#) | Apr 2, 2020, 1:09pm EDT

**Jeff Bezos' Blue Origin rocket company has been deemed an essential business by the government, allowing it to continue operating amid the coronavirus outbreak**

Avery Hartmans Mar 30, 2020, 10:26 AM

**Jeff Bezos' Blue Origin space venture says three workers in Kent have tested positive for coronavirus**

BY ALAN BOYLE on April 6, 2020 at 12:30 pm

the space colonies will be “maui on its best day, all year long. no rain, no storms, no earthquakes,” he said as climate change threatened the future of an entire generation

“we can have a trillion humans in the solar system, which means we’d have a thousand mozarts and a thousand einsteins,” he said as hundreds of thousands of humans died of covid-19 on earth

“this would be an incredible civilization,” he said, not talking about the one he has given up on, the one he is determined to leave behind

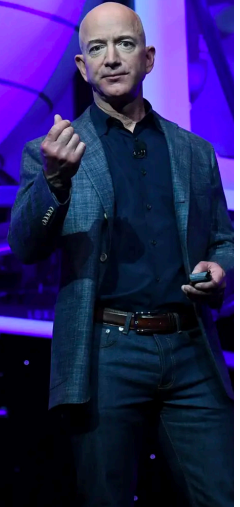

i will save the earth, said  
jeff

B L U E M O O N  
it is my fate, he said
